Prestress / Precast / Pipe

1. Bed number / Kiln Number	1	2	3	4	5	6	7	8
2. Product type								
3. Forms per Bed / Kiln								
4. Concrete load, Cu. yds								
5. Concrete load, lbs								
6. Steel Load, lbs								
7. Tarps or Kiln (Concrete)								
8. Tarps (insulated / uninsulated)								
9. Tarp Area or Kiln Dimensions								
10. Indoors / outdoors								
11. Load time, hrs								
12. Preset time, hrs								
13. Preset temperature (winter) °F								
14. Hold time, hrs								
15. Coldest ambient temp, °F								
16. Desired curing temp, °F								
17. Temperature rise rate °F / Hr								

Main electrical power (circle one) 575V / 3 Phase / 60 HZ or 460V / 3 Phase / 60 HZ or 230V / 3 Phase / 60 HZ
 Fuel (15 PSIG required) Natural Gas or Propane or Diesel / #2 Oil

Please attach sketch to include Steam Generator placement with full plant site layout and bed dimensions (L x W x H).
